(with End Card)

Creative Guidelines - Industry Standard Formats

Static / Native / Video

Display Ad Format	Supported File Formats	Duration	FPS (Frames per second)	Supported File Sizes	
Static	PSD, JPEG, PNG			<u>Portrait</u> 600x1200 640x1136 640x1140 480x800 720x1184 720x1208 720x1280 936x120 1456x180 750x1334 750x750	<u>Landscape</u>  672x560 640x300 640x200 900x150 960x150 900x750 640x960 960x640
Animated	GIF	Max 30s	Slower than 5 FPS		
Native	PSD, JPEG, PNG, GIF	Max 30s		1200x627 1200x800 1280x720	

## Four Tips for Great Display Ads

### Focus on Your Target Audience

---

#### Essential Questions

- Who's your target audience?
- What's the campaign goal?
- New or lapsed users?
- What action should they take?
- Where does the click lead?

### Use Branding

---

#### Improve Recognition

- Foster trust and brand recognition through strong branding to optimize the user ad experience.

### Strong Call-to-Action

---

#### Clear Direction & Action

- Limit your CTA to 15 characters max.
- Keep it short and relevant.
- Don't use UA creatives for RT campaigns and vice versa.
- Good design matters.

### Good Design Matters

---

#### Make it Stand Out

- Avoid reusing UA ads for RT campaigns; if reusing, change the CTA.
- Offer extra value, promotional offers, or limited-time offers.
- Ensure CTA stands out. Use your logo's color
- A/B test messaging style.

Ad Format	Supported File Format	Bitrate	Max File Size	Duration	Dimensions
Video	MIME Types: mp4	Less than 5mbps	Max file size 5MB	Any length recommended <ul style="list-style-type: none"><li>• 10-15s</li><li>• 25-30s</li><li>• 30s+ (select SSPs)</li></ul>	320x480 480x320
End Cards (Static/Dynamic)	PSD, .AI, .XD				480x320 320x480

**Note:**

- RevX delivers video ads compliant with IAB Vast 3 standards.
- We do not crop/stretch video assets to match the inventory dimensions.

## Four Tips for Great Video Ads

### Portrait and Landscape

---

#### Provide Both Orientations

- Extend your reach with both portrait and landscape orientations.
- If your app is used in landscape you must provide landscape creative and vice versa.

### No Icons on Final Frame

---

#### Encourage the Right Clicks

- Skip using your app icon in the final video frame to reduce unnecessary clicks.
- Direct clicks and ad interactions towards the CTA button.

### Clear Value Proposition

---

#### Highlight the Best Qualities

- In this competitive market, highlight your app's top qualities to drive re-engagement.

### Good Design Matters

---

#### Make it Stand Out

- Avoid reusing UA ads for RT campaigns; if reusing, change the CTA.
- Offer extra value, promotional offers, or limited-time offers.
- Ensure CTA stands out. Use your logo's color
- A/B test messaging style

## Clear & Strong CTA Helps Drive User Action

### Drive Action

Attract the audience to act - make a purchase, sign up, or download. CTAs like 'Install Now', 'Play Now' or 'Discover More'

### Measure Impact

Measure campaign success by tracking metrics like clicks, conversions, and engagement rates

### Enhance Engagement

Guide your users through the buyer's journey and increase engagement and reduce bounce rates

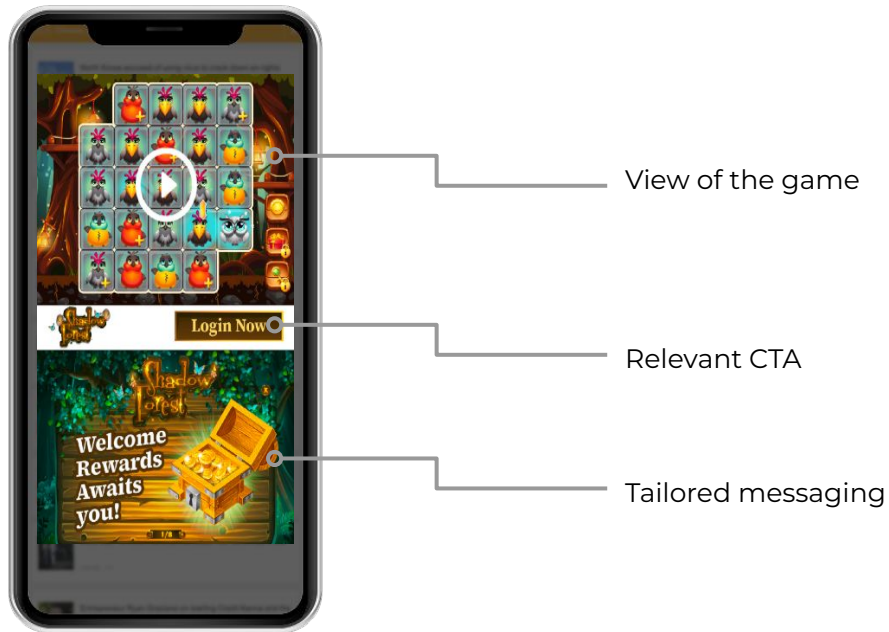

Example of a  
clear & strong  
user acquisition  
CTA

Creative Guidelines - Custom RevX Ad Formats

# Dynamic Creative Optimisation (DCO), Product Feed & Hybrid Ads

Rich media ad

Static ad

Video ad

# Product Feed Ads

## Personalised for the User

Creatives are personalised based on user level attributes delivering improved recall and reactivation.

## Deep Linking

Redirect users to the most relevant app page for product discovery, engagement and completing purchases.

## Customise the Experience

The creative template can be filled with personalized app engagement details, like selected products, cart contents, level reached, or virtual currency.

### Text

10% Off

Free

2 Weeks Only

Summer Deal  
etc.

### Background

Clear

Mountain

Sea

Marketplace etc.

### Products

Gloves

Towel

Bag

Airpods etc.

## How Does These Ads Work?

### Step 1: Data Collection

From product feeds, demographics, in-app behaviour

### Step 2: Ad Template Creation

DSP creates templates with diff variations of creative elements

## How Does These Ads Work?

### Step 3: Personalized Creatives

ML uses the collected data to predict the products and ad elements that will generate highest conversions

### Step 4: Ad Delivery & Performance Tracking

Personalised ad are served across inventories - video, native, interstitial etc.  
And ad performance is tracked to allocate budget to top-performing combination.

## What Do We Need for Product Feed Ads?

### 1. Event Forwarding

**Forward** your **in-app events** via your MMP partner

**https:**

### 3. Deep Links & Trackers

For iOS, use **deep links** or universals. We'll **QA** all deep links. Also require iOS and Android tracking links

### 2. Feed URL

Access your **product feed** via **URL** or API with times and timezone of feed's daily update

### 4. Creative Guidelines

Provide your logo, **creative guidelines** and **ad template**

Please click [here](#) for detailed guidelines to set up Product Feed creative.

# Hybrid Ads

Dynamic element

Prominent CTA

Visually engaging  
banner with  
product feeds

Higher CTR on Hybrid ads vs Static ads (banner, native).\*

1
