Transfer ad revenue funds

You can allocate a portion of your ad revenue from the [Unity Ads Monetization dashboard](#) into your advertising budget in the [User Acquisition dashboard](#).

Note: The minimum transfer amount is currently \$100 USD. The option to transfer revenue only displays if you have at least that much in your available payout balance. The maximum transfer amount is limited to the funds available in your payout balance.

To transfer revenue from the [Monetization dashboard](#), do the following:

1. Go to **Setup > Finance** in the secondary navigation menu and select **Transfer funds**.
2. In the **Transfer to advertiser budget** dialog, enter the amount you want to transfer. Select the organization you want to transfer funds to and select **Next**.
3. Review the transfer details before enabling the **I agree to the terms of service** checkbox to acknowledge that the transfer is final and can't be reversed.
4. Select **Request transfer** to submit the request.

Note: To transfer funds, you must be the Owner of the publisher Organization which initiates the revenue transfer. For more information, refer to [Unity Organizations](#) in the Unity Gaming Services documentation.

Important: You can direct a transfer of funds to any Organization you belong to. However, the publisher sending funds must have a valid tax profile, and the recipient of the transfer must have a billing address within your Organization. Additionally, advertising must be enabled on the receiving organization.

Transfers to an advertising budget will be available in your advertiser account within 24 hours. For questions, contact Unity Ads Support.
