Connection Type Report

Get the report based on the conversions corresponding to the connection type details:

Field	Description
Connection Type	Name of the type of connection being used.
Clicks	The number of clicks sent to the advertiser. **Note:** This is an auto-generated field
Conversion	The number of conversions reported by the advertiser. **Note:** This is an auto-generated field
CR	The ratio of conversions to clicks **Note:** This is an auto-generated field.

Step 3: Click on the option that you wish to perform

Rest: To re-select the fields

Apply: To get the report

Export: To download the report
