Dimensions panel Chart types

English

Dimensions panel Chart types reference

As you add or subtract dimensions, Report Builder automatically changes to a chart type that might work better for your data. You can change back, or choose another chart type, by clicking the chart type dropdown. As you change chart types, Report Builder might prompt you to add or subtract dimensions.
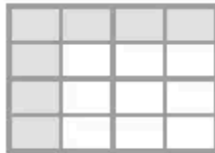

To explore the different charts available, select the dropdown that displays the current chart type.

Chart Requirements

When you change chart types, Report Builder guides you to add additional dimensions as needed.

Chart Name	Limitations and rules
Overall	Requires a Measure value but can be used with only a Time filter and no dimension
Table	Requires at least one Dimension
Grid	Requires exactly two Dimensions
Line Chart	Requires a time dimension
Area Stack	Requires a time dimension
Bar Chart	Flexible, but you might want to limit this to dimensions with few types
Sunburst	Flexible, but you might want to limit this to dimensions with few types
Heatmap	Requires two dimensions

Chart Name	Limitations and rules
Treemap	Flexible
Sankey	Requires at least two dimensions
Bubble Chart	Requires at least two dimensions
Cross Tab	Requires at least two dimensions
Geo Marks Geo Shades	Deprecated
